Education

Universiteit Utrecht — **Utrecht, Utrecht**
Game and Media Technologie — **Feb 2026 - Present**

Amsterdam University of Applied — **Amsterdam, North Holland**
HBO-ICT, Game Development. (Cum Laude) — **2025**
Relevant Coursework: Degree Program Committee, Student Assistant

Experience

Vertigo Games — Amsterdam, North Holland
Junior Developer (prev. Programming Intern) — Feb 2025 – Feb 2026

- Contributed to high-profile, confidential projects within the Meta Horizon ecosystem, working as a developer alongside senior leadership and cross-disciplinary teams.
- Explored first implementation in the Meta Horizon Engine, navigating undocumented features and evolving APIs to build foundational gameplay systems; actively communicated with Meta representatives to troubleshoot, provide technical feedback, and refine engine capabilities.
- Switching from rapid prototyping to production-ready code, helping in efforts to refactor experimental codebases into scalable, performant, and maintainable architectures.
- Acted as a technical subject matter expert, providing guidance to technical designers and team members to ensure smooth integration of assets and gameplay logic within the codebase.
- Drove collaborative design initiatives, actively contributing ideas and refining mechanics in partnership with the design team to enhance the overall interactive experience.
- Upheld security and compliance standards, maintaining confidentiality within isolated, secure development environments and ensuring all internal communication adhered to strict project protocols.
- Leveraged strong Object-Oriented Programming (OOP) principles in TypeScript, successfully applying expertise from a C# background to deliver robust, and scalable game functionalities.

Rooftop Immersive Studio — Amsterdam, North Holland
Freelance Developer — Feb 2024 – Feb 2025

- Developed and implemented immersive software solutions and engaging game experiences, from concept design to final deployment, leveraging the Unity game engine and mobile development to enhance interactivity and accessibility across platforms
- Collaborated with designers, developers, sound engineers, and creative professionals to develop interactive experiences, delivering projects that meet client expectations and industry standards
- Utilized programming skills, including C#, C++, HLSL, and JavaScript, to build optimized, scalable and responsive code for both gameplay mechanics and software functionality
- Led the integration of graphic elements using shaders written with GLSL and user experience principles to ensure cohesive and intuitive digital worlds
- Managed project timelines and deliverables, adhering to strict deadlines while maintaining high quality, achieving an on-time project delivery rate of 85%
- Applied knowledge of 3D modeling, animation, and VR/AR technologies to create immersive experiences, expanding the studio's capabilities in virtual environments and interactive storytelling

Leadership & Activities

Amsterdam University of Applied — Amsterdam, North Holland
Secretary, Degree Program Committee (HBO-ICT) — Jun 2022 – Present

- Actively participated in meetings to represent students from the Faculty of Digital Media and Creative Industries, advocating for improvements to the HBO-ICT program.
- Responsible for organizing meetings, documenting minutes, and supporting the committee's objectives.

Amsterdam University of Applied — Amsterdam, North Holland
Student Mentor — Jun 2022 – Present

- Supported fellow students academically and personally, organizing study groups and offering guidance on effective study skills.
- Strengthened leadership and communication skills through mentoring activities.

Skills & Interests

Technical Languages:
C# (Advanced), C++ (Intermediate), JavaScript (Intermediate), Typescript (Intermediate), Python (Intermediate), Java (Intermediate), Kotlin (Basic), Rust (Beginner), HTML/CSS (Advanced), HLSL/GLSL (Advanced)

Programs & Tools:
Unity (Advanced), Unreal Engine (Basic), Godot (Intermediate), Meta Horizon Engine (Advanced), Blender (Intermediate), FMOD (Intermediate)

Languages: Dutch (*Native/Bilingual - ILR Level 5*), English (*Professional Proficiency - ILR Level 4+*)

Interests: Hiking, Cooking & Baking, Knitting, Gaming, Woodworking, IoT Projects, Gardening
